

# Electives

Electives Classes are taught by talented individuals who have had training in their particular area of expertise. *We would like any parents with unique abilities that would like to share some wonderful new experiences with our young warriors to contact a school administrator.* The intent of this time is for the students to step out of the regular classroom schedule and subject matter to experience new and enriching opportunities.

The students can participate in one or as many activities as their parents feel they can handle. Enrollment will occur at each semester only. Fees will vary by class. Please contact the school for specific details.

We also plan to maintain a study hall time with an adult monitor for kids who would like to do school work in between their scheduled classes.

## **Below is a list of possible activities:**

Physical Education  
Spanish  
Sign Language  
Art  
Music/Choir  
Drama  
Science Exploration  
Public Speaking
